

Say Goodbye to Nasal Congestion

NoseFrida™

FACT

Children between birth and 3 years
cannot blow their noses.

Blocked noses affect
breathing, sleeping and eating.

NoseFrida™ is a doctor recommended
nasal aspirator for small children
with colds and blocked noses.

SAFE • EFFECTIVE • HYGIENIC

NoseFrida™, has been developed by ear, nose and throat specialists, and is an indispensable aid when your child has a cold or blocked nose.

- NoseFrida™ is a plastic tube with a filter, that is used by an adult to draw the mucous from a child's nose.
- NoseFrida™ is made from non-allergenic and latex free polypropylene.
- NoseFrida™ has a specially designed filter to prevent an adult from coming into contact with the mucous, so there is no risk of bacterial contamination.
- NoseFrida™ is safe for children as nothing is inserted into the nostrils.
- With NoseFrida™ you control the amount of suction required.
- NoseFrida™ does not irritate the sensitive lining of the nose.
- NoseFrida™ is so effective, it may reduce your need to use nasal drops.

NoseFrida™
gets your baby breathing,
sleeping and eating again!
